

THE GLEICHEN CALL

VOLUME XXXV NO. 21.

GLEICHEN, ALBERTA, WEDNESDAY AUGUST 5, 1942

SUBSCRIPTION \$2.00 PER YEAR

VETERANS GUARD OF CANADA WANT MORE MEN IN RANKS

Once again Canada is calling more old comrades back to the colors it is revealed with the recent announcement from Colonel H. B. Ailey, Officer Commanding the Veterans Guard of Canada, that 2500 men are now over the age of fifty years are required immediately.

Major J. H. Galt, M.C., district recruiting officer of Military District No. 13, has announced that commencing on the morning of August 10, four mobile recruiting units of the Veterans Guard of Canada will set out in four different directions and will cover practically every town and village in the province of Alberta seeking recruits for the Veterans Guard of Canada.

The officer in charge of the itinerary of this area will be Major F. J. Jenkins adjutant of the 14th (Res.) Army Tank Battalion, (Calgary) headquarters will cover the territory south of Calgary to include Macleod, Pincher Creek, Milk River, Medicine Hat, Empress, Brooks, Bassano, Gleichen and all the districts surrounding, as far north as Red Deer and district, and west to Rocky Mountain House.

Major Jenkins will be in Gleichen on August 10th from 10 a.m. to 10:30 a.m., one half hour only. Complete itineraries of the hours and dates that the recruiting officers will be in each town will be published in all weekly newspapers and radio stations will carry announcements of the towns to be visited each day. All those interested are requested to contact their local civilian recruiting officials as to place to contact the recruiting officers in their various towns and districts.

Special representation is being made to the Department of National Defence at Ottawa to have the age limit of veterans eligible to join the Veterans Guard raised from fifty to fifty-five years. Veterans who are interested in enlisting are also advised that special arrangements for "harvest leave" have been completed and that arrangements for same can be made if so desired.

The Veterans Guard of Canada companies are called upon for service in war in many parts of the Empire. Three new units of the Veterans Guard have recently arrived overseas in various parts of the Empire, in addition to those already dispatched with men chosen proportionately from all the units of the Guard in Canada. New duties have arisen in Canada necessitating the formation of six new companies and enlistment in the Veterans Guard of Canada is for service anywhere in the world and for the purpose of home defence only as is generally believed. Veterans of every trade and occupation are required, with duties being ever also planned in the light of physical abilities of the man of fifty.

THE WORLD OF WHEAT

This is a year of heavy rainfall. Judging by the records of the past this year should see a heavy crop.

Since the year 1898-44 years in twelve years the wheat yield for the three prairie provinces has averaged over 20 bushels to the acre all being years better than normal rainfall.

In only four of those years, however, has each of the three provinces enjoyed a 20 bushel or better yield during the same year. The years were 1901, 1906, 1911 and 1915. The highest yield ever recorded for the three prairie provinces combined was in 1915 with an average of 25.2 bushels to the acre. Next came 1901 with 25.1 bushels to the acre and 1902 again with 25.1 bushels. The highest yield to the acre ever recorded by any one province was by Alberta in 1915 with 31.1 bushels to the acre. In 1916 and 1929 would probably have been record years had it not been for the rust which took a heavy toll in Manitoba and parts of Saskatchewan. Since 1935, when rust-blight was brought into the country—later followed by the use of other rust-resistant wheat—losses from rust have not been serious.

Since 1928 the three provinces combined have not produced an average yield of 20 bushels to the acre, the nearest being 1929 with 19.1 bushels

ITEMS OF INTEREST OF THE TOWN AND DISTRICT

Miss M. Morrow of Alhambra, California spent a few days here visiting her grand parents Mr. and Mrs. G. T. Jones.

Miss Rose Woods and Miss Millie Gilbert returned home Sunday after spending a week in Calgary visiting friends.

Mr. and Mrs. W. E. Thompson and family have returned home after spending several weeks holidaying at Sylvan Lake.

Miss Mary Downey, who is on the hospital staff of the Holy Cross Hospital, Calgary, arrived in town last week to spend a few days holiday and visit friends.

Mr. and Mrs. W. Williams of Edmonton and their son Thomas, R.C.N., Calgary, spent some hours in town Saturday afternoon visiting Mr. and Mrs. G. W. Evans, and Miss D. Brown and Miss A. Evans of the Blackfoot Indian hospital staff.

Wherever one goes wonderful crops are to be seen. Most of the wheat is about showing. In some places, particularly east of Gleichen, hail has got in its deadly work. Last week some hail fell in some areas west of town. It will probably be another two weeks or more before harvesting will commence.

The members of the second 22nd Battery returned to town on Sunday night's train after spending a week at the barracks at Sarcee Camp. There was a large crowd at the station to welcome the boys home. All of them look well and some of the boys are displaying plenty of ten while others are carrying around extra poundage under their belts. This shows that camp life must have agreed with them. On arrival they were marched to the armories where they were dismissed.

Here is a suggestion in answer to the perennial question, "How are we to raise money for the club?" How about showing a film, instead of having a tea? The National Film Board at Ottawa has films which can be obtained free of charge for the use of town's clubs. Most of the pictures were taken in England and have to do with civil defense and women in war work. They can be obtained by writing to Miss Anne Macdonell, National Film Board, Ottawa.

A sad reflection, "Well, I never!" exclaimed Mrs. Biggins. "What's the matter?" asked her husband in a startled tone, as he turned around from his shaving glass. "The idea of a grown man like you standing there for five minutes at a time admiring yourself." "I'm not admiring myself. My feelings are those of astonishment, not admiration. I can't realize that I'm the same person who years ago was called precious pet and held on people's knees and kissed by the neighbors. It's an awful thought."

REV. L. T. PEARSON RESIGNS FROM ST. ANDREWS CHURCH

The parishoners of St. Andrew's Church will be surprised to learn that their Incumbent, the Rev. L. T. H. Pearson has tendered his resignation. Mr. Pearson was offered and has accepted the rectorship of St. John's Church, Calgary.

Mr. Pearson has conducted services at St. Andrew's for the past two and half years and during that time has demonstrated that he was a very capable man. It is no surprise, to those who know him, that he has been offered a larger and very attractive parish. All will join in wishing Mr. Pearson every success in his new location.

Services will be held in St. Andrew's Church the two last Sundays in August, Aug. 22 (Evensong 7 p.m.) Aug. 30 (Holy Communion 11 a.m.)

THE WEEK IN EDMONTON

Something of a crisis is approaching in regard to the highway situation in Alberta with road machinery on war time jobs and drastic restrictions on the use of surfacing material. As a result the government has been con-

sidering the advisability of certain heavy oil-druck traffic, and now W. A. Falow claims some millions of dollars damage to surfaces. "If nothing is done Alberta will have highways in about a year," said the minister.

Heavy rains in Alberta have cut down the honey volume, and now slaves are only 75 per cent. alive, whereas it was expected they would be holding capacity loads, according to department of agriculture officials. Total production will not be lowered to the extent of individual unit, because there are approximately 25 per cent more colonies operating this year than last.

In a move to meet the current shortage of nurses in Alberta, a plan has been drawn up by Provincial health officials and a representative of the municipal hospital association for submission to the Alberta Association of Registered Nurses. If this latter body approves, the plan will be put into operation. The new program calls for the training of women as ward aides in larger hospitals, and their transfer to smaller hospitals where shortages are acute. Ward aides are non-technical workers of great assistance to trained nurses.

The Alberta government will call an early conference of all groups and bodies concerned with the present labor shortage and proposals will be prepared for transmission to the federal government to deal with the situation. This was stated by Premier Albert Hart at meeting with delegates from farming, industry and business in the legislative building. The Edmonton Chamber of Commerce had earlier sought such a meeting. It was declared that Alberta's industrial position would be jeopardized if further drains on labor are made. The question of diverting new industry to Alberta labor and resources rather than diverting these assets to other lands was also given serious consideration.

The Home Front

WARTIME PRICES AND TRADE BOARD

Recently stocks of canned corned beef, in the hands of retailers and distributors were frozen by the Wartime Prices and Trade Board. One good reason for this action was to keep up the supply the Red Cross sends to Canadian prisoners of war.

"Corned beef can be eaten for days on end without ill effect and for that reason is a valuable item in parcels for prisoners. This of corned beef is also needed for the Army and Navy. Maritime and new industry in the lockers of life boats and of life rafts. It also serves as a reserve ration for the Navy. Army, for light-house keepers and for isolated defence posts in Canada.

Detailers having one case of corned beef or more, in stock are required to turn it over to a distributor, who in turn, holds it for disposition by the Board.

A case of corned beef, means one dozen six pound tins, one dozen four pound tins, four dozen 12 ounce tins, or eight dozen eight ounce tins. It's a horrible thought, but when summer comes winter is never far behind. And when Mrs. Consumer is checking on her winter food supply, she has probably made a mental note about alterations on her fur coat. In approaching her furrier she should know that charges for services may be greater than those in the previous basic period, and that an accurate coat must be kept of materials. If the costs are more than \$15 she must authorize the work to be done, in writing, and will receive a rebate if the costs are less than anticipated.

The Wartime Prices and Trade Board thus controls expenditure on needed alterations or repairs. The minds of housewives doing preserving and making jam these days is the ever present question, will the reduced sugar allowance made for preserving and canning keep the fruit as well as the quantity of sugar formerly used? The answer is yes. According to all tests made by the Consumer Section, Department of Agriculture, it is found that jams and preserves fruit keep just as well as the did with the old cup measurements. They are as better for health and have better color and truer fruit flavor.

U.F.W. LADIES HOLD REGULAR MEETING LAST WEEK

(Special Correspondent)

Mrs. John Koeford was hostess to the ladies of the U.F.W.A. on Thursday afternoon. The meeting was to have been held in the lovely grove of trees but owing to the cool weather it was held in Mrs. Koeford's house. The meeting opened with two songs led by Mrs. MacArthur. The roll call "Things to pass on which I have learnt through my own experience" was answered by 18 members and four visitors. Minutes were read and also a letter from Mrs. McDougall of Turner Valley, which was quite lengthy and was enjoyed by the members. Several of the members had at-

tended the Brooks Provincial Horticultural picnic which they found very interesting and enjoyable. Local events were given by all present.

A few quilts blocks were turned in for the emergency kit in Gleichen which are to be made into a quilt and were handed over to Mrs. MacArthur. Much discussion took place regarding the picnic to be held on August 22nd at the same picnic grounds and if the weather was unfavorable the site would be changed to Meadowbrook hall. Ice cream cones and coffee are to be donated by the U.F.W.A. and the U.F.W.A. The usual picnic lunch to be taken by all members. Mrs. J. Wilton, Miss Umbricht, and Mrs. N. McMillan were appointed a committee to look after spots for children.

Two members, Mrs. F. Sammons and Mrs. H. Halse, were sent to Ottawa

for the Rest Week. The Toronto quilt is to be quilted at Mrs. Quennell on Thursday, August 13. All were glad to see Mrs. Koeford able to be up and around, but she still has her left arm in a sling. Also some to hear that Mrs. Sammons Mr. Goodwin and Mrs. Wilson were not enjoying the best of health. All joined in wishing Mrs. B. Day many happy returns of the day. Mrs. H. Burns gave a very interesting article on the life of Mr. and Mrs. Churchill which was very interesting. An invitation was extended the Junior U.F.W.A. to attend the picnic.

After a delicious lunch and a pleasant hour spent in visiting the members adjourned to meet on August 26th at the home of Mrs. P. Warner. All are requested to bring their thimbles as it will be another quilting day.

EFFECTIVE NOW TEA AND COFFEE are rationed by coupon

The ration is one ounce of tea or four ounces of coffee per person, per week

Coupons A, B, C, D, and E, on the Temporary War Ration Card, now in the hands of the public, are to be used, and are NOW valid for the purchase of tea and coffee.

Each coupon will entitle the purchaser to one ounce of tea or four ounces of coffee - a supply for one week.

If desired, purchasers may use any or all of these five coupons simultaneously, and buy up to 5 weeks supply at one time, on the surrender of the appropriate number of coupons.

Numbered coupons are good only for the purchase of sugar and may not be used to buy tea or coffee. Similarly, lettered coupons may not be used to buy sugar.

COFFEE CONCENTRATES AND SUBSTITUTES CONTAINING COFFEE

One coupon must be surrendered for each quantity of coffee concentrate or substitute containing coffee, sufficient to make 12 cups of beverage.

TEA BAGS REQUIRE COUPONS

When purchasing tea bags, the following coupon values shall be used:
2 coupons for a carton of 18 or 20 tea bags
4 coupons for a carton of 40 or 45 tea bags
8 coupons for a carton of 80 tea bags

CHILDREN UNDER 12 YEARS OF AGE ARE NOT ELIGIBLE TO RECEIVE ANY RATION OF TEA OR COFFEE.

SPECIAL NOTICE TO RETAILERS

On and after August 3rd, retailers must establish their right to purchase new supplies of tea or coffee from their suppliers by obtaining a copy of the supplier's current valid ration coupons, equivalent to the quantity of tea or coffee ordered from the supplier.

How to Conserve TEA AND COFFEE

Here is a grand mealtime beverage with a delicious, robust flavor all its own. Instantly made in the cup — VERY ECONOMICAL.

POSTUM

4 oz. size makes 50 cups,
8 oz. size makes 100 cups.

GIVES INFORMATION

Sergeant At Canada House Great Help To Armen On Leave

Corporal Sam O'Brien, Windsor and Toronto man, is one of the men most widely-known among R.C.A.F. personnel serving in Great Britain. It is to London the R.C.A.F. boys often go on their 48-hour leave and Corp. O'Brien is at a desk in Canada House, means for Canada's armed forces in Britain, to answer their questions.

At the R.C.A.F. desk in Canada House, Corporal O'Brien for the past five months has been helping airmen on leave to locate friends, to find good places for brief holidays, solve some domestic problems.

Sammy sits behind that counter day in and day out and handles inquiries of a variety of types ranging from the whereabouts of John Doe, an A.C. who enlisted in Toronto, to the price of sausage rolls at the N.A.F.I. in Edinburgh. In the five months of its existence the Inquiry Office, through Sammy O'Brien, has interviewed, helped and settled the problems of over 1,800 Canadian officers and men.

Back in 1918 Sammy held the call to the colors when he was 17. He came overseas and joined the Royal Flying Corps and was employed in the construction of Handley-Page bombers. In March, 1940, Sammy still felt that he could do something to shorten this one, so he passed up his job in the Tax Office in Toronto. He was posted to No. 1 Fighter Squadron and embarked for overseas with that unit in June of the same year. Nearly a year later, in March, 1941, he was posted to headquarters and has stayed with it right up till January of the present year, when he took over his present duties in Canada House.

Using Luxury Liners

Japan Said To Be Converting Nine Into Aircraft Carriers

Here is news of special interest to who has gone to Honolulu or Shanghai or other Far Eastern ports on one of those luxury liners once operated by Japan's biggest steamship company.

These nine liners are being converted into aircraft carriers at a disused location, according to information from South American sources and permitted to be published at Washington without of course any official comment.

The average displacement of these vessels is probably more than 20,000 tons. They will furnish badly needed reinforcements for the battered Japanese fleet. But, probably, after the United States Navy finds them, they will never again carry honeymooners to the Orient.

Unofficial comment in the capitals is that the Navy's interest will be more keenly stirred when and if these luxury liners take the water as carriers.

There is little expert opinion on how effective they would be. One expert says that the conversion is "very unlikely." Some of the nine vessels involved could carry only a few planes. Average, including 25,000-ton ship, would be less than 30 planes to a vessel.

DEFENCE PREPARATION

Henry VIII, through a decree, required every male, from the time he was seven until he attained the age of 17, to practice with bow and arrow as a defence preparation.

You GIRLS WHO SUFFER

FROM DYSMENORRHEA

If you suffer monthly cramps, headache, nervousness, dizziness, irritability, monthly distress, try Lydia E. Pinkham's Vegetable Compound. It builds up the system, restores the balance of the blood, and makes the blood red blood. Made in Canada.

Faithful Dog

Airmen's Companion Waits Patiently For Return Of Master

On the runways of a Fighter Command aerodrome near London, a dog patiently watches every plane that lands. It has been waiting for days for its master to return from a raid on France.

Fighter ace Squadron Leader Paddy Phinney and other pilots at the station have tried to coax the dog, but he refused to eat or drink.

Sabu and his master were constantly together, Sabu always watched the master take off, and sat on the runway until he returned.

Then one day the squadron returned from a sweep without his master. Pilots tried to play with the dog, but he would not budge from the runway.

Night and day he sat there waiting. Then Sabu was sent to his master's fiancée in Yorkshire, but escaped, and was next found sitting on the runway of the aerodrome again.

He never whines just waits and watches quietly and patiently. That is why some of the pilots believe that Sabu must know his master is alive. — London Sunday Chronicle.

Vital To Good Vision

Vitamin B-2 Is Often Lacking Altogether In Our Food

Vitamin B-2, vital to good vision, will probably be introduced into some such staple food as flour within the next year, in the opinion of Dr. L. S. Norris, of Cornell University.

The vitamin, otherwise known by the term "riboflavin," is lacking altogether too frequently in the American diet, according to Norris.

When the human body lacks riboflavin, the eyes are sensitive to strabismic light, is defective in twilight, and the corners of the eyes is invaded by small blood vessels.

"As long as you get a pint of milk a day, or a steak or in some other form," he said, "one or more eggs a day; a good serving of lean meat, and at least one serving of a green vegetable such as green peas, your diet will contain all the riboflavin that you need."

Strange Umbrella

Japanese Sword Found In Midget Submarine Sunk In Sydney Harbor

The mystery of the supposed umbrella found in one of the midget submarines sunk in Sydney harbor, May 31, was solved by Navy Minister Norman Makin, who opened it on his desk and produced a sword.

The blade was 27 inches long, the handle 9 1/2 inches long, large enough to be grasped by both hands. The sword was encased in three coverings held at one end by a tasseled cord, giving the weapon the appearance of a large umbrella.

Removal of the cloth revealed a leather case enclosing a metal scabbard. The handle of the sword was beautifully embossed with gold. A ring was etched on the hilt. It is assumed it was the property of the submarine commander. It will be deposited in the Australian War Memorial Museum.—New York Times from Canberra.

SAILORES SAVE CHURCH

St. Martin-at-Oak church, Norfolk, was saved from complete destruction in a recent fire by passing sailors, who fought the flames until overcome by fumes. Damage included all the windows—by Zolov was 120 years old—and a good deal of tracery. Repairs will cost £700. St. Benedict Gate, on the west side of the church, and on old post, houses were swept away by a direct hit.

Worries Efficiently

Prime Minister Churchill Has Own Method Of Meeting Trouble

The South Sea Marie Star says: Prime Minister Churchill told his friends in Washington that he had to use a personal priority system for them. To a colleague who was complaining about his minor troubles, Mr. Churchill explained that he had had so many worries for so long now that they had to have a top priority to claim his attention. One day, he explained, Kharkov was A-1 priority; the next day, Egypt. In that way, he explained jokingly, he could "worry efficiently."

High Altitude Flights

Hot Engines On Bombers At 65,000 Feet Below Zero

Yes, strange as it may seem, this is one of the incredible problems of high altitude flights. Engine oil coolers and super-charger intercoolers on one Flying Fortress bomber, cruising at 30,000 feet—where temperatures slide down to 65 below—have a job to do equivalent to that of 1800 refrigerators, of the type used in homes.

Are Real Nuisance

So Called Wild Animals Bother Men At African Airports

Spin may have its Ferdinand the Bull but Africa has its Ferdinand the Lion. A fier knows. He met him.

Major Thomas Dawson is thankful to be alive to tell this story. It seems that he had just landed his plane at Suda, Africa, when a big lion dashed up and slugged him with his paw. A British officer called.

"Fit him back," he wrote to play? Major Dawson hit him. But the lion came back like a playful dog, grabbed his arm in his mouth, apparently in a friendly gesture. Then he let go and scampered away.

As a matter of fact, Major Dawson reports that so-called wild animals of all kinds are a nuisance around African airports.

They're a bother, he says, not because of their ferocity, but because of their tameness.

At one airport, a full-grown giraffe wandered all over the place. In many places deer are as tame as goats. And at one landing field they had to chase away a herd of elephants before they could land.

Dawson asked a British officer what would happen if the elephants decided not to sto. The officer replied:

"We never have any trouble unless there are young with them. Then we just stay in the air until they decide to leave."

SMILE AWHILE

Teacher—What's a Grecian urn? Jimmie—That all depends on what he does.

Conductor—You should wait until the car stops, madame.

Fair Passenger—That's all you know about it! I have an accident policy that hasn't paid me a cent yet.

London Water—How did you find the steak, sir?

Shelter Diner—I just pushed aside my two peas and there it was.

"You know, Ethel, you've no idea how sorry when you say away."

"Oh, you shouldn't do that. I always come back, don't I?"

"Yes; that's what I worry about."

"Your voice is decidedly raspy this morning," complained the colonel.

"I know, sir," answered the lieutenant. "I've been out roughing it with a file of soldiers all morning."

"Charles is marrying again, I hear."

"So they say, and from all accounts his second wife will make rather a lively stepmother for the children."

"A sort of watch-your-stepmother, I suppose."

"Did you see how pleased Mrs. Smith looked when I told her that she did not look a day older than her daughter?"

"I didn't notice. I was too busy watching the expression on her daughter's face."

Pat finished work at the pit. When he put his coat he noticed his mates laughing at him. Wondering what was wrong, he took it off again and saw a donkey's head chalked on it.

"Begorra," he exclaimed, "some smart lad had dried his face on my coat!"

Judge—And you call yourself a peace-loving man?

Defendant—I do, Your Honor.

Judge—Even after you slugged Casey on the jaw?

Defendant—Yes, Your Honor. I never saw Casey so peaceful as just after I hit him.

All-Bran Pecan Muffins Substitute For Dessert

So good are these tender-textured, nut-filled bran muffins that they make the place of sugar-consuming desserts, when served piping hot with fresh sweet butter and preserves. Try them some night when you're having a light supper and need something hearty to serve as a "filler-cupper." Here's the recipe:

All-Bran Pecan Muffins

2 tablespoons shortening 1/4 cup milk
1 cup sugar 1 cup flour
1 egg 1/2 teaspoon salt
1 cup All-Bran 2 1/2 teaspoons baking powder

Cream shortening and sugar; add eggs and beat until creamy. Stir in All-Bran and milk; let soak until most of moisture is taken up. Sift flour with salt and baking powder; add, with the nut meal, to first mixture, and stir until flour disappears. Fill greased muffin pans two-thirds full; bake in moderately hot oven (400 degrees F.) 30 minutes.

Yield: Eight muffins, 3 inches in diameter or 12 muffins 2 1/2 inches in diameter.

Tagging The Beast

The Terrors Of Hitler's Bloody Turf

There is no crime against humanity too base to be committed by the "Beast of Berchtesgaden." His twisted soul seems to delight in tortures of the most horrible kind. Nothing like it has ever been known in modern times. Not even the heinous crimes of innocent Armenians by the "Terrible Turk" approaches the terrors of Hitler's bloody pogroms. He has turned Europe into a shambles. He glorifies in his atrocities of wholesale slaughter.

This is the demon in human form who aspires to rule the world. What he has done in Europe is a sample of what would happen in America, if he ever succeeded in conquering this hemisphere. His diabolical hatred would be vented upon countless thousands of innocent men and women.

The most depraved imagination cannot picture the tortures and torments we would have to suffer if Hitler were to rule us.—San Francisco Argonaut.

Trumpeur For Royalty

Canadian Who Played For Their Majesties Dies In Toronto

Alfred Stevens, 41, personal trumpeter for the King and Queen on their royal visit to Toronto, died at his Bonnie Bee Bldg., East York, home after a long illness.

He was a suanote while playing at the C.N.E. two years ago and has been in ill-health since.

His corpse travelled ahead of the royal train when their majesties visited Canada, and played fanfares with the Royal Canadian Artillery band at all stopping places.

In the fanfare he was featured as a soloist. In 1927 he played a solo for the Duke of Windsor, then the Prince of Wales, when he visited Toronto.

You'll find exact details of making this kind of a fanfare in our 32-page booklet. Also tells how to weave charming evening bag, matching handkerchiefs, scarf, knitting bag, covers, other novelties.

Send 10c to come for your copy of "How to Weave Useful Novelties" to Helen Seaton, 1000 Newmarket Road, Florida Shores gradually to its edge and then drops off abruptly into 1,500 fathoms depth.

HOME SERVICE

BRIGHT FOOTSTOOL COVER YOU CAN WEAVE YOURSELF

You weave it easily from strips of bright cloth in harmonizing colors—perhaps a flowered fabric for the center and a darker for the border. Fold strips to 1-inch width.

Put strips and slits end together, with strips of lather tucked to the two longer sides, form the simple knot.

Up and down, through the burlap strip, you thread a weaving loom (warp of heavy twine). Then double in strip of the cloth, twist the long way. Set fold against upper left warp thread, turning one end of strip under twine and the other over it.

This double weaving gives an attractive ribbed effect. You bring the upper half under the second warp thread, and the lower half under the latter half over the work just laid, bringing it over second warp and under third.

You'll find exact details of making this kind of a fanfare in our 32-page booklet. Also tells how to weave charming evening bag, matching handkerchiefs, scarf, knitting bag, covers, other novelties.

Send 10c to come for your copy of "How to Weave Useful Novelties" to Helen Seaton, 1000 Newmarket Road, Florida Shores gradually to its edge and then drops off abruptly into 1,500 fathoms depth.

academic training under the war emergency Training Plan and will graduate from Initial Training School as potential Air Observers, Pilots, Air Navigators or Air Bombers. The second class are those selected for training as Aircrew (Wireless School). These candidates will be posted following training and outfitting to a wireless school. The third division is Aircrew (Air Gunner). These men are Air Gunners and pro-

One point is common with all

Goodwill ambassadors of practically every allied nation are in Canada—training to take their places in the air against Hitler's hated henchmen. From coast to coast are youths who wear on their shoulders the designation of many, many countries. Among them, training under the Commonwealth Air Training Plan, may be seen representatives of Great Britain, Australia, New Zealand, South Africa, Rhodesia and Jamaica. Many thousands of men from the United States came to fly with Canada before the United States was a belligerent, and their native sons are in large numbers among our squadrons now overseas.

Shop mates tell of a chunky young man employed in a factory who, being discharged by the superintendent, deliberately walked up to a fire alarm button on the wall and pressed it vigorously. "What thunder did you do that for?" asked the superintendent. "Isn't that one of your rules?" queried the discharged man, as he edged toward the door at the same time indicating the place on the button: "In case of fire, press the button."

Variety Test Plots

It has been our experience that when visiting experimental farmers and others are always interested in variety test plots, and new or unusual crops they have never seen before. With this in mind we sent seeds of wheat, oats, barley, corn, soy beans, grasses, alfalfa, etc., to country grain buyers willing to sow and weed the plots. Last year the plots were very popular. Several grain buyers reported that even the farmer in the district visited the plots, and some farmers paid regular

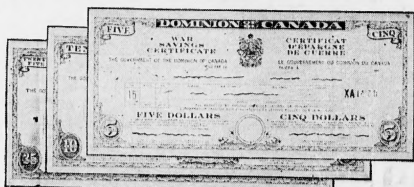

This year we have 311 plots in the prairie provinces. About half of these include annual crops only, such as wheat, oats, barley, soy beans, corn etc. The remaining plots have, in addition, perennial grasses and clover. All include a variety of "hybrid corn for comparison with standard varieties.

A complete list of plots, giving the location (town), and elevators in charge, has been sent to all grain buyers of line elevator companies associated with the Agricultural Elevator Association of the North-West Line Elevator Association.

In order to find out where the nearest plot is, therefore, enquire at the local line elevator. Schools, Junior Clubs and other groups are cordially invited to make up parties and visit these plots. Insofar as the quantities of material permits, grain buyers will be glad to supply small bundles (when fully ripe) for display in schools and elsewhere.

A black and white illustration showing a man and a woman in a professional setting. The man, on the right, is wearing a suit and tie, sitting at a desk with his hand to his chin in a thoughtful pose. The woman, on the left, is wearing a dark jacket and is leaning over the desk, holding a folder or book. They appear to be in a meeting or discussion. The background is simple, with some horizontal lines suggesting a wall or another desk.
